KIDWELL'S COMPOUND FLUID EXTRACT OF BEECH DROP. OR CANCER ROOT:

(OROBANCHE VIEGINIANA,) and a ! Diseases arising from an Impure state of Prepa el by J. L. KIDWELL, Druggist, George

His ory of the Beech Drop, or Cancer Root. THE BESCH DROP, OR CANCER ROOT, is figured and described by the celebrated Dr. Barton, in his Medi-

A kno vielge of its extraor linary medical virtues was first learned from the North American Indians. by whom it was used for the treatment and cure of Cancer, Kheumatism, Scrofela, and Consumption. The Fluid Extract of Orobanche is composed encombined as to possess in the greatest perfection the virtues and powers of an alterative and purifier of the blood. It is, therefore, applicable as a neverfailing remedy in Scrofula, whether suppurative or glandular, Chronic Rheumatism, Cancerous disease in any form, especially cancerous diseases of the literus. In all complicated cases of Scrofula and Sypullis, and in cases where the syphilitic virus of the parent causes a devalopment of Syphilis or Scrafuls in the child, this is the only rame ty upon which a hope of recovery can be reasonably founded. It is useful in all scaly skin diseases, Ulcerated Sore Throat, White Swelling, diseases of the bone, ond all eases of an ulcerous character. It is also particularly useful in Chronic and Nervous Cemplaints, occurring in debilitated and eachetic consti tution; in Bronehitis, Dyspepsia, Chronic Enlarge ment of the Liver and Spleen, Dropsy, dis-ases of the Kidneys and Blander, and all diseases arising from

an impure state of the blood. The estimate that is accorded this preparation by the medical profession, and indeed by all competent to judge of its merits, may be seen in the fact, that it is e instantly prescribed by many of our most eminent physicians, and that it has been presented to their students as worthy of their especial attention. The following certificate is given from the very best authority-John R. Jones, late Assistant Clerk to the House of Representatives. His recovery is considered extraordinary. Most of the members of both Houses of Congress visited him at the St. Charles Hotel, and expressed their astonishment at the wooders effected by the Compound Fluid Extract

of Beech Drop: Washington, D. C., April 29, 1853. For the benefit of the pabeic, and with none other than a desire to do good, I cheerfully state, that I was afflicted with a cough and bronchial affection. from July, 1852, to March, 1853, and during that time was almost constantly confined to my room, laboring under great debility and severe cough. had medical skill of the nighest order, through whose treatment, and under the guidance of a higher than mortal power, my life was prolonzed til' March, 1853, when I commenced the use of Dr. Kidwell's Beech Drop, or Extract of Canger boot. Since that period I have taken about six bottles of it has effected an entire cure, with the exception of weakness, occasioned by long confinement to my room. I would advise all persons similarly afflicted to try it. I consider it an invaluable medicine, The humbugs usually palmed upon the public in the shape of certificates favorable to the virtues of medicines, almost deter me from giving mine; but a sense of justice and humanity alone prompt me to

make the above statement. JOHN R. JONES. Late Ass't Clerk Ho. of Rops., Washington. Now Chief of the Land Office, Vicennes, Ind, CHRONIC RHEUMATISM CURED!

GEORGETOWN, Jan. 31, 1853. DEAR SIZ: It is with a sense of gratitude, and desire that others suffering from disease may be in-duced to use the Extract of Beech Drop, that I consent to give the following statement for publicity. Until the last month I was a sufferer from Chroni Rheumatism, from the effects of which my heal h war so completely undermined and broken up, that I lost 20 or 30 pounds of my usual weight. Anxious to find some relief, I resorted to the most approved patent medicines. I used a number of bottles of lownsend's Sarsaparilla, and exhausted the list of Liminents, without any effect. My joints now be- iy occupied by J. S. Donovan. Liberal commissions some enlarged, and the pains in my limbs so excrucuting, that they had to be rubbed two or three times a night. The muscles of my legs were so contracted that I presented the appearance of a man of sixty-live when I walked. In this condition, more through curiosity than a belief in its good effects, I ommenced t e use of your Beech Drop, and in ten or twelve days the swelling about my joints had subsided; and now, after the use of three bottles, I am sole to resume my business, and can walk with the same ease and comfort that I formerly did. Yours truly, &c. IMAAC BARRETT Second street, Georgetown.

Georgerown, February 1, 1854. Ma Kinwell-Siz: A female member of my family aged 14 years, had been affected with a painful Scrofulous affection of the ear for i years, and aithough the best medical advice was had here sud in Balti-more, still the disease increased and the pain often became almost intolerable. Fortunately for us, your Beech Drop was recommended to be used, and I have great pleasure in stating that it has been eminently successful. The Mucous Secretions has not made its appearance for some months; the health of the paheat has been quite restored; all the parts that were heretofore so much diseased have become sound and well, and I am much gratified in being able to state to you, that I regard it as having been accomplished entirely by the use of your Beech Drop. I am very respectfully, your obedient servant, GEORGE POE, Sr.

To John L. Kidwell.

WASHINGTON, D. C., December 12, 1853. John L Kidwell: Dear Sir-This is to certify that my daughter, age 12 years, was affected with Scroflast a very aggravated form-the disease had so und ruined her health, that life was entirely de spare lot. Hearing of the efficacious effects of your back Drop in such cases, I procured it, and after using one bottle so evident was her improvement that we persevered with it. When she had use! 4 bottles, her health was perfectly restored. Ouheigt bors and friends who saw her condition prior

to using the Beech Drop, unite in attributing to your remedy the credit of her recovery.

Very respectfully yours, WILLIAM R. McLEAN.

As you are the Agents for House, corner Pratt and Charles street, Baltimore, HAMPTON'S VEGETABLE TINCTURE, I deem it expedient to address you this note, boping it may be a part of the honorable means of giving this medcine notoriety which its merits deserve.

Being in the habit of vending medicines which relate to the patent and regular system, I consider myself, to some extent, a judge of the real merit of many of them. My experience teaches me that "Hampton's Tincture" is a Medicine of real merit of intrinsic value. When I say this, I do not say that tions of the gastric juices, bad digestion, and conse-quently bad deposits of animal matter from that source. I believe that many diseases located in va rious parts of the system, such as Inflamation, Ul-cers, Scrofula, &c., originally have their being in the stemach, from bad food, bad digestion, and consequently bad depositions of the circulation to those parts; and I will believe Hampton's Vegetable Tinc

to others in such cases as I have described, and I have done it upon the "no cure no pay" system, and I have yet to have the first bottle returned, or the first objection about the pay. It is a great pity, it cannot be more extensively circulated among the people. * * * * I warrant it in the following cases; Gout, Rheumatism, Inflamations, which proceeds from the stomach, Scrofula, Sores, Dyspepsia, long standing cases of Ague and Fever; first stop the chill, and then give the Tincture - the difficulty in this case is not in stopping the chill, but the return of it, this the Tincture will certainly do. In general debiliations, I warrant it. and as I said before, I have procured a trial of it in this way, which otherwise I could not; the people have been humbugged by patent medicines so long, that they are afraid of all. This is clearly a stemach medicine, it works sil its wonders there, and in al! such cases it is a specific, if anything in the world

Having given the Tincture a fair trial with myself, in my family neighborhood, I think I am warranted in what I say about it, and which I do without any other interest than the wish to see it in general circulation, and in every man's family, just where it ought to be.

If what I say be doubted by any of the afflicted, and they will write to me at Sandy Bottom Post Of fice, Middlesex county, Va., stating the nature of the disease, and I recommend it for such a case I will warrant it, and if it don't do good, I will pay for the Respectfully,

He consulted with the jeweller, who, after an inspection, said there had undoubtedly been an erasure, but it had not been done whilst the article had been in his possession. and he himself was not aware of it before the present moment. Ferrers' first idea was to proceed to the prefect of police with the ring, to put that functionary in mind of the series of robberies and murders which had caused so much excitement some years before, and emand an official court of inquiry, to trace the history of the ring since it had been wrenched from his finger. Second thoughts, however, persuaded him otherwise. The erasure of the initial might, at the outset, raise a difficulty which would render this course entirely useless. Resolving upon another mode of proceeding, he asked the je veler by what means the ring had come into possession; but as that individual seemed to consider the question somewhat uncivil, he purchased it giving
